SIMPLE RULES FOR ORDERING

TO FIND WHAT YOU WANT TO BUY, refer to Brief Index above or to Itemized Index on pages 2 to 16.

USE OUR ORDER BLANK, IF YOU HAVE ONE. If you haven't one, use any kind of plain paper.

TELL US IN YOUR OWN WAY WHAT YOU WANT, always giving, if possible, the catalog number of each article, the price, and also the size and color, where these are necessary.

ENCLOSE IN THE LETTER the proper amount of money in the form of a postoffice money order, which you can buy at the postoffice, or an express money order, which you can buy from any express agent, or a draft, which you can buy at any bank, or you can put the money itself in a letter and take it to the postoffice and tell your postmaster that you want him to register it to us. If you have a checking account at a bank, you may, if you prefer, send us your personal check.

IF YOU LIVE ON A RURAL MAIL ROUTE, just give the letter and the money to the mail carrier and ask him to buy a money order at the postoffice for you and to put it in the envelope with your order and mail it to us.

DON'T BE AFRAID YOU WILL MAKE A MISTAKE IN MAKING OUT THE ORDER. We receive hundreds of orders every day from young and old, who never before sent away orders for goods. We are accustomed to handling all kinds of orders.

WRITE US IN YOUR OWN WAY, IN ANY LANGUAGE. We have translators who read all languages. Don't worry if you think your writing is poor. We will be able to read it and your goods will be promptly sent.

Do not fail to give size, color, weight, etc., if required, when writing your order.

IF THERE IS ANY OTHER INFORMATION YOU DESIRE, such as methods of shipping, postage, express or freight rates, you will undoubtedly find it by referring to pages 17 and 18 of this catalog.

Read This About Special Catalogs and Sample Books

We issue a number of special catalogs in order to show a larger variety of merchandise or give more information about the merchandise in some special lines than is possible in our big General Catalog. We also issue a number of sample books or sets of samples that show the actual material. Any of these books will be mailed free and postpaid on request.

Before writing for any special catalog or sample book be sure to refer to the pages of this big General Catalog to see whether the goods you want to buy are shown in this Big Catalog. If they are shown in this Big Catalog you can avoid the delay of waiting for a special catalog. If you can order without samples you can avoid the delay of waiting for samples or a sample book. Remember, we guarantee to please you in every respect or return your money, which protects you against any disappointment whatever.

Do not send for a special catalog or sample book unless you are sure the goods you want to buy are not shown in this Big Catalog. At the same time we want you to send for a special catalog if you really feel that you need it.

In writing for a special catalog or sample book, if you will just tell us the kind of goods you want to buy we will be sure to send you the catalog that shows the goods in which you are interested.

List of Lines of Merchandise for Which We Issue Special Catalogs, Circulars or Sample Books.

following paragraphs we fully explain the various details about press and freight shipments.

ight of pments

Shipping weight in our descriptions means the weight of the article packed for shipment by itself. You can therefore figure the amount of postage you will be required to send us at the rate of 1 **cent an ounce** if you want a mail shipment; or (on the items) what the express or freight charges will be. Items are to be shipped by themselves. Of course, if you are making up an order to be shipped at, combining a number of these items, your weight would not weigh as much as these combined weights, for if they are packed together, the separate wrapping is unnecessary. In these, however, we quote only **actual weight** allowance for packing; particularly where weight partly indicates value and on goods not for shipment by themselves.

l Shipments

On all orders to be shipped by mail we require the full amount of cash with the order, together with **sufficient money extra to pay postage.** If you want goods shipped by insured mail, enclose in-fee. If you want the package shipped by registered mail, enclose registration fee.

TION 1. OPEN MAIL. So called because only our merchandise rate of postage (1 cent per **required.** Open mail shipments are for-at customer's risk. The government is not for packages lost if shipped by open mail.

TION 2. INSURED MAIL. If, in addition to sending us the postage rate of 1 cent an ounce on any orders you wish shipped you include also on orders up to $5.00 in value 5 cents per order on orders of over $5.00 and under $10.00 in value 10 cents per and on orders of more than $10.00 in value 5 cents for each $5.00 we will guarantee the safe arrival of the entire shipment.

TION 3. REGISTERED MAIL. So called because the postoffice keeps a record of each shipment sent by registered mail from it is delivered to them by us until they deliver it to you. This is method of forwarding shipments of jewelry or other small valuable exceeding $10.00 in value. The rate of postage on registered mail per ounce and in addition 10 cents for registration on each pack-ipped.

press pments

Shipping goods by express is an absolutely safe method of transportation and is good, quick service. It is, as a rule, the most profitable method of shipping goods weighing less than 20 pounds.

Always call for your goods promptly when the express agent notifies you that they have come.

have no agent at your station, all express shipments will be the town nearest you which has an agent. If there is no agent station and you want the goods shipped by express, always tell ation to ship them to.

ake separate express shipments of certain light and expensive ch as watches, jewelry and high priced revolvers, when they are ipped with a miscellaneous freight or express order. We send that is called "Sealed Express" in a package by themselves for afety.

For Freight Classification and Freight Rates See Page 18.

Freight Shipments

Freight is the preferable method of shipment for all heavy, bulky merchandise, such as agricultural implements, household goods, furniture, groceries, hardware, etc.

When a shipment weighs more than 100 pounds, the railroad companies charge only for the actual number of pounds at the regular rate per 100 pounds. For instance, if the rate per 100 pounds to your town should be 40 cents, a box weighing 125 pounds would cost 50 cents freight charges. Freight charges amount to very little on any kind of a shipment in comparison with the saving you make on our extremely low prices, but it is well to keep the freight rates in mind when ordering, because **railroad companies usually charge no more for carrying 100 pounds than they do for 20 pounds,** so that in case you only have a small order and want it to come by freight, you could have some friend buy goods at the same time, send his order with yours and have both orders shipped in your name by freight, and if both orders weighed less than 100 pounds they would cost no more than either one of the orders would if it were shipped separately.

If you have no agent at your shipping point, freight charges must be prepaid from here, and if you do not know what these freight charges will amount to be sure to send enough money extra to cover them. If you send more than the amount we need to prepay the charges, we will at once return you any balance.

If you have an agent at your station, it is not necessary to prepay charges. In fact, it is better not to have them prepaid, as the charges are exactly the same no matter whether you pay them or we pay them.

Factory Shipments

In order to make our prices as low as we do, we find it necessary to ship many of the heavy, bulky articles that we sell direct from the factory where they are made, thus saving our customers freight and cartage to Chicago, handling and other expenses incidental to merchandise passing through our house.

The freight from the factory to the customer's town is frequently less than if the goods were shipped from Chicago, because the factory may be located nearer the customer's town than Chicago.

The descriptions tell you if goods are to be shipped from factory. Of course, the most of our merchandise is shipped from our house in Chicago.

Be sure to come and see us when you are in Chicago. We want to show you through our great buildings. Any street car or elevated railroad conductor will direct you to our plant.

Club Orders

Railroad companies, as a rule, charge as much for carrying 20 pounds of freight in one shipment as they would for 100 pounds. Consequently, it is a good plan, if you only have a small sized order which you wish shipped, to ask some friends or neighbors to join, or club in with you and make up an order and have them all sent in to us and shipped out together to one person, who can give each member of the party his proper share of the goods. By doing this, you see, you could have four or five 20 or 25-pound shipments go for exactly the same freight rates as one shipment of 20 pounds.

How to Return Goods

If you ever find it necessary to return goods to us for any reason, first write us, tell us what the trouble is, and we will advise you how to send the goods back.

Be sure to send back with your letter, the bill, as well as any other papers you may have relating to the order.

When you return goods to us, either by mail, express or freight, be sure to address the package, box or tag plainly to us and also be sure to write **your** own name and address plainly on the package, box or tag, so that we will know who the sender is. **Also be sure to write the order number on the package.**

Never return goods by express if the package weighs more than 25 pounds, as it will be cheaper to send it by freight.

Do not seal a mail package, but wrap it in such a manner that the postmaster can open it and examine it without destroying the wrapper. Do not make the mistake of pasting stamps over the string of a package of merchandise which you are sending by mail, because that is the same as sealing it and will cost you double postage.

Do not fail to register mail packages worth $2.00 or more. A package can be registered for 10 cents, and if it does not reach us promptly it can be traced.

Do not return any article shipped from a factory without first writing us, because you would not be able to know otherwise whether we wanted it sent to Chicago or back to the factory.

C. O. D. Shipments

We have practically discontinued shipping goods C. O. D., because nearly all the customers who formerly had goods shipped this way now send cash in full with their orders, thus saving the annoyance of going to a bank or an express office to pay the balance due on the shipment, and also saving the cost of returning the money to us. Still, if for any reason a customer would prefer to see and examine goods before paying for them in full, we will make C. O. D. shipment upon receipt of a sufficient deposit, usually about one-fourth of the amount of the order. We will not, however, accept any order to be shipped C. O. D. if it amounts to less than $5.00, because orders for amounts smaller than this are unprofitable to the customer, due to the charge for collection and return of the money.

Goods shipped by express C. O. D. are always subject to examination in the express office. If they are satisfactory in every respect, you pay the agent the balance and the express charges and charge for returning the money and take the goods.

We cannot guarantee the privilege of examination on goods shipped C. O. D. by freight, because many railroads give their agents instructions to not allow any packages to be opened until after the charges have been paid.

Safe Delivery Guaranteed

We guarantee everything we ship you to reach you in perfect condition.

If ever you receive any package from us in a damaged condition, have your freight agent or your express agent make a notation of the damage on the face of the receipt he gives you when you pay the charges, and send this receipt to us, telling us just what is the matter, and we will make it right. In case of express shipments the express agent will give you a receipt on request.

FREIGHT AND EXPRESS RATES

Tables Showing the Freight and Express Rates per 100 on Goods Shipped From Chicago to a Number of Cities State, These Cities Being Used by the Railroads as a Basis for Figuring Rates for All the Towns in the Immediate Vicinity of Each

Railroad Companies Figure Freight Rates With the Larger Cities in Each State as a Basis.

All other towns located in the same part of the state as any one of these cities take practically the same rate or only a few cents per 100 pounds more or less than the rate to the larger city.

Please consult the following Table of Rates, considering it in connection with the classification of merchandise given below, and you will be able to determine easily almost exactly what the freight will amount to on any goods. If your station is not named in these tables, the rate to your station will be very nearly the same as the rate to the nearest city named.

Freight or Express Charges Amount to Very Little.

Don't be afraid of freight or express charges. They never amount to much compared with what we save you. In fact, we guarantee that you will save money on every purchase after you pay the freight or express charges. No matter how far away you live we can still save you money on your purchase. If you do not find it so, you may return the goods to us at our expense and we will return your money and all transportation charges you paid. You will not lose a cent.

Classification of Merchandise for Freight Shipments.

You will notice in the Freight Rate Tables below there are four different rates quoted to each city, **first class, second class, third class and fourth class.** This is because the railroad companies base their rates on the kind of merchandise to be carried. In order, therefore, to give you an idea as to the rate which any kind of merchandise will take to your nearest city, we tell you here the kind of merchandise which takes the different classes of rates.

DOUBLE FIRST CLASS—Cameras (West).

FIRST CLASS—Bath tubs, baby carriages, dry goods, carpets, curtains, matting, oilcloth, rugs, etc.; books, stationery, boots and shoes, wagon wheels, Morris chairs, cigars, couches, cream separators, dressers, desks, etc.; drugs, electrical goods, fire arms, graphophones, harness and saddlery, incubators, lamps, notions, pianos and organs, pictures, rubber goods, sporting goods, cameras (East), camera supplies, tinware, toys, furniture (most kinds), trunks, valises, farm wagons, clocks, clothing, tents, washing machines.

SECOND CLASS—Hardware, granite ware, plumbing material, glassware, refrigerators, loaded gun shells, extension tables, vacuum cleaners, tools, animal traps, wall paper, crockery, concrete block machines, woodenware, bedsteads.

THIRD CLASS—Church, school and farm bells, farm implements, windmills and towers, mill work, stoves and ranges, iron safes, wire fencing, iron pots and kettles.

FOURTH CLASS—Anvils, most all kinds of groceries, felt and tarred roofing, galvanized iron, steel roofing, steel siding.

HOW TO FIGURE EXPRESS CHARGES.

First estimate the weight of goods you are ordering; then find the rate per 100 pounds by express to your nearest city in the Table of Rates below; then consult the following Scale of Express Charges, following the line for the weight of your goods to the column headed by your express rate per hundred pounds and the amount shown will be the express charges.

If the exact rate per hundred pounds is not shown in any of the headings of this scale, take the next highest rate shown and the express charges will be about the same as to your town.

"Gold Label" Embroideries are the best products of the highest class factories, whose work is not excelled in this line. They are as near perfect as embroideries can be made. This line will appeal particularly to those who always like to have the best but cannot afford to pay the very high prices asked by others for like quality. Our prices are just one-half what you would have to pay for embroideries of similar quality elsewhere, provided you could secure a quality as good in the large department stores. We are the only house in the United States selling these exquisite "Gold Label" Embroideries. They are made on the sheerest and finest cloths with the best quality of thread and are closely stitched in nice lacy designs; in fact, you would readily believe they were hand embroidered, and we know that the possession of such fine embroideries for your wardrobe would give you a world of satisfaction.

GOLD LABEL EMBROIDERIES
MADE FOR SEARS ROEBUCK & CO.

A glance at the illustrations will readily prove to you that the designs are so different from the regular run of embroideries that they will lend exclusiveness to the wearer and add character to any costume. While they cost a little more than ordinary embroideries, you will find them cheaper in the long run, as you will never tire of wearing them, and being so exceptionally well made, they naturally will last much longer.

These splendid yarns are made for us from the best quality of raw wool, carefully selected, properly spun, very elastic and lofty. You can have every confidence in our Golden Crown Brand of Knitting Yarns, for there are none better. We give full measure according to the standard of yarn weights. Yarns are always sold in this manner. Our prices speak for themselves; no one sells as good a quality of yarn at so low a price.

REAL FRENCH CURL PLUMES

ORDER AT OU

Extra Fine Value at a Saving of One-Third

A FEW FACTS ABOUT OUR FRENCH CURL PLUMES.

They Contain Only Hard Male Stock.

The width of the flue is quite generous and in good proportion to the length of the plume. They are most carefully dyed and curled.

One of these plumes will outwear three of the ordinary kind made of soft fluffy stock.

They are the easiest style of feathers with which to trim, as they lend themselves easily to almost any shape. They make a bigger showing on the hat because of their long sweeping effect.

Wearing an ostrich plume is the real test of its qualities. Looks are very deceiving; you should buy ostrich feathers from people in whom you have confidence.

In the price list on the opposite side of the page you will find a saving of one-third over retail prices.

RICH LOOKING COMBINATION WITH OSTR FEATHER BANDS.

Our three in a bunch Ostrich Tips are made of the same uniform high grade as used in all of our other lines of ostrich goods, a quality which will give the and satisfaction. Tips are in great demand for trimming turbans as well as all shapes which will not carry a large plume. Only the head of the feather is used ing up of the tip, length being of little consequence, as the chief point of value of tips, next to the grade of feathers used, is the rich appearance given by the better the tip, the wider and heavier the head. ortant Notice About Untrimmed Hats, of Interest to All Women

ix hats illustrated below (not on heads) represent the leading styles of braid that ed in hats worn during the spring and summer season of 1912. They are all ns of actual photographs and are for the purpose of showing you, as nearly as ew the different braids look. You can judge the quality and fineness of these oting the number of rows sewed to each inch in width. For example, our satin finish Shansi braid sews about four rows to the inch, while our genuine patent Milan braid sews about eight rows to the inch. This fact not only proves that fine texture is an item of quality, but that a braid which sews eight rows to the inch requires more yardage and more labor than that which sews four. What You Can Expect When You Buy One of Our Special Feature Suits

WE HAVE made for ourselves an enviable reputation for providing big values for our special feature pages. We are proud of this fact and take pleasure in always living up to our claim of being able to offer the very best values for the money that it is possible to obtain. This season all our ingenuity for getting the best the market affords, at the lowest prices, was brought to bear in selecting our two feature suits. Nothing was too good for us. We were as critical as a bride selecting her trousseau. We didn't stop until we were actually convinced that we had found a fabric which could not be duplicated under a third more than the price we intended to ask. Not only must the fabric be the best, but the style must be unquestioned, correct in every detail, so that the two suits on our feature page would be worthy examples of our high quality and low price policy. If when you receive your suit you do not think that it justifies all our claims for it, we want you to return it to us and we will cheerfully return your money and all transportation charges you have paid.

$15.00

Please notice that in this feature suit at $15.00 we give you a fine all wool French serge, the fabric which bears the stamp of Fashion's approval, both in New York and Paris. We are able to offer this $25.00 to $30.00 suit at $15.00 for the following reasons: First, by buying in such immense quantities we are able to obtain unusual price concessions. Second, the suits of the present season do not require as much material as in the past. And, last, the tremendous number of suits we sell enables us to work on an exceedingly small margin of profit. The coat is cut in 26-inch length, trimmed in new effect with national stripe silk and salt water pearl buttons. Lined with peau de cygne silk. The skirt is a smart six-gored model with floating panel front and back, finished with silk fringe. Although straight hanging, the skirt has plaits at bottom which give it a sweep of 3½ yards. **Give measurements.** Shipping weight, 5½ pounds.

ur Special Feature House Dresses

They Will Make People Recommend Us

EVERY year we have feature pages on which we try to give our customers something better than they have ever had before at the price. Our regular customers know this, and have learned to look forward with interest to our feature offerings. This year we decided to offer you three dresses that will be such big bargains that every woman who buys one of them will tell all her friends of the splendid dress she received and the money she saved by buying from us.

When you look at these illustrations and see the price, don't think of the regular $1.00 dresses you are in the habit of seeing. Think, rather, of a dress which has more than a dollar's worth of good, honest material in it, a dress that would cost you at least $1.00 to have made, or more than a dollar's worth of your own valuable time. Then think of this neat, stylish dress, all made, ready for you to put on, with no worry about buying materials, cutting, fitting and making. And all this for $1.00.

Style and Finish

This splendid array of beautifully embroidered garments direct from Paris will appeal to every lover of dainty lingerie. Nearly every article is entirely hand made—not a machine stitch to be found. They were hand stitched and embroidered by expert needlewomen in their homes in France. American patterns have been used in the cutting so as to better fit our American women. The detail of workmanship and finish on every piece is admirably executed and any woman may well be proud to add an assortment of these dainty garments to her wardrobe. They cannot fail to gratify the most refined taste.

WE MAKE THEM AND MAKE THEM RIGHT

The many thousands of Rusleen Petticoats we sold during the past few years have given the very best of satisfaction. We use this cloth because we absolutely know the whole process of its construction; by whom it is made and how it is dyed and finished. MATERNITY OUTFIT for THE MOTHER

SPECIAL—NEW—IMPROVED

No. 29H202 Price, complete, neatly packed, $7.50

In presenting to the patrons of Sears, Roebuck and Co. the Maternity Outfit with accompanying instructions as to its use, it is not our purpose to replace the family physician in any respect, but to work only in conjunction with him. It is a noteworthy fact that nearly every mother puts off until the last the buying of needed supplies preparatory to the approaching birth of her child, with the result that only a few are prepared. There are several reasons for this; chiefly the natural procrastination of many people; the reluctance of many to consult a physician until forced to do so by approaching birth, and lack of information on the part of so many mothers, especially at the first birth, that there is need for preparing any supplies besides the baby's clothes; furthermore, the inability of the mother or doctor to gather together these various articles in the average town or city. To meet this long felt need we have had an instructor in the Department of Obstetrics in one of the leading medical colleges of our country prepare for us a practical yet simple maternity outfit which contains all the supplies necessary for the use of the mother, doctor and the nurse at the time of labor. He has also written a pamphlet to accompany the outfit to instruct the mother in making up the supplies. It would be advisable to show this list to your family physician for his approval and ascertain if he desires any additional supplies to be prepared.

Very truly yours,

Eliza Emerson Goff.

Full Instructions Accompany Each Outfit.

Maternity Corsets and Waists from the pages of The Baby Book

NOTE—In ordering Maternity Corsets, where you do not know your exact size, take your measure at the waist line over the corset which you are now wearing, and deduct 2 inches from the number of inches shown by the tape; this allows for the spread of lacing in the back. For example, if your waist measure is 23 inches over your corset, you should order corset size 21. Please do not apply this rule to a measure taken without your corset on.

The Baby Book

WE QUOTE in this big General Catalog complete lines of babies' and children's wear, but to meet the increasing demand for infants' wear of a higher grade, we have assembled a beautiful and dainty line of babies' wear—hand made and hand embroidered long and short dresses, skirts, sacques, wrappers, flannel goods, knit goods, muslin wear, headwear and footwear. Every article in this department represents the best value afforded by the domestic and foreign markets as to quality, workmanship and style, and obtainable heretofore only in a few of the largest and most exclusive retail stores in New York City. As the sale for this special merchandise is not so large as for regular lines, it does not warrant our quoting it in this General Catalog. Our Roly Poly Diapers, or Sanitary Squares, are made of the best quality Birdseye Cloth. We wish to call attention to the fact that they are used not only for the baby, but also for other sanitary purposes; in fact, thousands of these are sold as face cloths and used extensively in barber shops and in private homes. Quality Efficiency in Men's Clothing On a Bigger Scale Than Ever

The day when ready to wear clothing was associated with the man satisfied with average quality is past. Today the best dressed men everywhere, those who are critical and demand the best, wear ready to wear clothing bought from us, because it offers the most logical way of securing maximum high quality at minimum prices. A glance through our Sample Book shows quality efficiency in men's clothing developed on a scale never before attempted.

The richest patterns of the world's finest woolen looms, the exclusive styles of the most clever designers, the perfect work of a tailoring organization developed and trained after years of patient effort, every clothing idea, fancy or wish that the most critical dresser may entertain, are now to be realized at prices that heretofore could only bring you average quality at the best.

This high quality efficiency has been made possible only by our wonderful exact cost plus one profit plan of making and selling clothing. Improve the quality; eliminate unnecessary expenses, is the keynote of this plan. We operate our own shops. We buy materials in large quantities direct from manufacturers. We sell through our catalog only. There in a nutshell you have our plan. We control the quality through every step from start to finish, thus are able to produce any standard of quality that we decide upon. By eliminating the jobber, agent and other middlemen, we reduce the cost by at least 40 per cent. We deliver you clothes satisfaction by the shortest and least expensive route.

YOUNG MENS-BOYS *and* LITTLE FELLOWS CLOTHING

WRITE FOR—FREE SAMPLE BOOK 88H

THE *Excellall* BRAND | THE *Ucanttear* BRAND

THE HIGHEST QUALITY AT LOWEST ONE PROFIT DIRECT FROM MAKER TO WEARER PRICES

Our EXCELL-ALL clothing for young men has no equal in the country for style and quality at our prices. Young men are clothes critics and EXCELL-ALL clothes are made to please them. That we have succeeded is proven, first, by its reception at the hands of the purchasers, and second, the large volume of our sales. "The finest clothing we have ever seen" expresses the general approval of purchasers. "Get us the finest patterns and all wool fabrics that the market offers. Design us the newest and most original styles. Develop these styles and fabrics into clothes that represent the highest quality standard in workmanship, trimmings and fit." These are the orders under which our buyers, designers and manufacturers have produced the young men's clothing shown on pages 294 and 295. Those who wish to purchase young men's clothing at lower prices than we ask for our EXCELL-ALL brand will find the young men's clothing on pages 292 and 293 the best on the market for the money.

The U-CANT-TEAR brand has become a household word the country over for high quality in boys' and little fellows' clothing. Our aim has been to make this brand the finest clothing in point of style, fabric, workmanship and fit. We have spared no trouble or expense to make it such, and as "Merit wins its own reward," the U-CANT-TEAR brand holds the enviable position of being the best and largest selling brand of boys' clothing in the country. When you need boys' clothing, buy the genuine U-CANT-TEAR brand is sound advice to follow. You will get styles, patterns and quality that cannot be duplicated anywhere under 30 to 40 per cent more than our prices. You can save about one-half of your boy's clothing expenses if you buy from us. It is important to remember that a genuine U-CANT-TEAR brand garment bears the U-CANT-TEAR label, that we manufacture it exclusively and that you can buy it only from us.

How to Order Young Men's, Boys' and Children's Clothing.

On the inside front cover page and on our order blank you will find our measuring chart which enables anyone to take measurements. On orders for young men's clothing, give measurements as explained on the chart, and mention size of coat and trousers that young man is wearing at the time order is sent. On orders for boys' school suits, knee pants suits, little fellows' suits, blouses, knee pants, etc., just state correct age of boy, the size of the clothes he is wearing, if you know it, and whether he is large, small or of average size for his age. A good plan is to save the size tags, so the next time you order you will know exactly what size to order, always making allowances, of course, for the growth of the boy since last clothes were bought for him.

We Make EXCELL-ALL Brand Suits to Order.

Young men who prefer to have their clothing made to order, others who must have it made to order because of irregular build, being either extremely tall and slender or short and stout, and who cannot be fitted with a ready made suit, can have any EXCELL-ALL brand suit made to special order. We charge one-fourth more than the regular price quoted. This extra charge simply represents the extra cost of special cutting and other special handling. We do not make sizes larger than 37 inches breast measure. When ordering made to measure suit, give full measurements, as explained on inside front cover page. Be sure to mention the exact length of the coat and sleeves. Give the number of the material and the name of the style. You can have any material made in any style.

THIS SAMPLE BOOK IS FREE.

We issue a special sample book, as here illustrated, containing cloth samples of young men's clothing and boys' knee pants suits. If you wish to see cloth samples of this clothing before ordering, write and ask for free Sample Book No. 88H. The pages of little fellows' clothing and boys' clothing, not including the knee pants suits, are exactly the same as the pages in this catalog, so you do not need this sample book if you wish to order that kind of clothing. Remember, we guarantee complete satisfaction, or money returned.
